

“BMB snc” was founded in 1987 conceived as a small business project by the company’s owner, Sir. Fulvio Berini. During more than two decades the company has developed and expanded becoming “BMB di Berini F. & C . Snc”, a company featuring an advanced technological structure in the continual research of innovative solutions.

The product range is directed to industrial fields such as refrigeration, food preservation, packaging, the oil industry and iron and steel metallurgy, ship building, mechanics, electronics and aeronautics in which the main objective is satisfying the customer’s specific needs.

Our point of strength is the technical department composed by highly skilled personnel with proven experience. Thanks to the courses we organize, our technicians are continually updated with the latest hardware and software solutions. Thanks to innovative systems, quality control efficiency and high-precision equipment along with the flexibility of the company’s production process so that BMB is able to guarantee products which features advanced precision and reliability.

BMB Berini F. & C . Snc also manufactures mechanical details like shafts, pins, wedges, supports, spacers, plates, bushings, flanges,...for its own internal production of industrial automation and for third parties in a wide range of mechanical fields in the following materials: special annealed and hardened steel, sinterized steel featuring elevated hardness, aluminum and its alloys, iron, copper, brass, plastic, etc.. We also carry out traditional turning and CNC Ø max 1000 x 3000, traditional milling and CNC, roughing, working of large elements (i.e. stamped and forged), groups assembled according to the drawing.

PORTALE FRESATRICE KAFO A 5 ASSI

Portale mod. KMC-3122

Controllo Heidenhain 530

Cambio testa automatico, testa a 5 assi posizionati.

Asse X: 3100

Asse Y: 2200

Asse Z: 1100

FRESATRICE OLIVETTI HORIZON 500

Orizzontale CNC con tavola in continuo cambio utensili 90 posti.

Macchina idrostatica multi pallet

Asse X: 1400

Asse Y: 1400

Asse Z: 900

Asse B: in continuo 360° (Tavola)

Dimensioni Tavola 900x800

FRESATRICE FPT

A banco fisso Spazio 2000

Asse X: 2000

Asse Y: 800

Lunghezza asse Z: 1250

Testa 2,5°x2,5°

CENTRO DI LAVORO MAZAK FJV250

Asse X: 1380

Asse Y: 750

Asse Z: 570

Mandrino 12000 giri

CENTRO DI LAVORO MAZAK VTC300

Corsa asse X: 1740

Corsa asse Y: 760

Corsa asse Z: 660

Mandrino 12000 giri

TORNIO MAZAK SQT

Ø tornibile: 350

Lunghezza 1000

TORNIO AUTOAPPRENDIMENTO CMT

Ø Max. Tornibile: 450

Lunghezza: 2000

RETTIFICA TANGENZIALE ROSA

1650×500

con piano magnetico

MACCHINA DI MISURA CNC WENZEL 3D

Asse X: 800

Asse Y: 1500

Asse Z: 700
